ABOUT ME

I am a Full Stack Web developer with expertise in scalable web solutions and mobile architectures using TypeScript, MERN, Laravel, and Next.js, with knowledge of WordPress. I can work independently under strict project timelines.

SKILLS

- ✓ Frameworks: WordPress, Next.js, NestJS,
- ✓ React.js, Vue.js, Node.js, Laravel,
- ✓ Tailwind CSS, Express
- ✓ Languages: JavaScript (ES6+),
- ✓ TypeScript, HTML5, CSS3,
- ✓ PHP, SQL, MongoDB
- ✓ Git, GitHub Actions, Gerrit, Webhooks

PROFESSIONAL EXPERIENCE:

2024 - Current | Open source contributions

Wikimedia Foundation Ecosystem / WMA Hackathons

- Formulated query layers and data mapping to connect with decentralized knowledge bases on Wikidata.
- Resolved Git merge conflicts and had my contributions merged on GitHub; met strict deployment deadlines for two critical projects during intense coding sprints.

Mulema / Startup

Full Stack Developer | 2026 Internship

- Built and maintained websites for clients through various online platforms
- Created and tested applications for websites
- Filed reports, gathered information, and performed research
- Created guides to document the processes and maintain business continuity

RELEVANT PROJECTS:

Timelix (Availability & Scheduling Platform) | Team Lead | Laravel(PHP), Vuejs

- Built a real-time booking and routing engine using Laravel backend logic and a dynamic Vue.js frontend interface.
- Programmed product-state coordination layouts and database query pathways to handle client availability schedules smoothly

BookEasy (Appointment Booking App) | Product Engineer | Mern Stack

- Created an online booking application to eliminate back-and-forth scheduling issues for small business owners.
- Programmed the user interface so customers can view real-time availability, book services, or reschedule easily

LANGUAGES

- I speak English fluently and basic French
